

MOVE THE KNIGHT CHORE CHART

This chore chart works great for kids who have not learned to read, or do well with structure. Once your child has completed a chore/task they can move their knight. The more your child can physically move their knight, the more invested they will be in doing their chores.

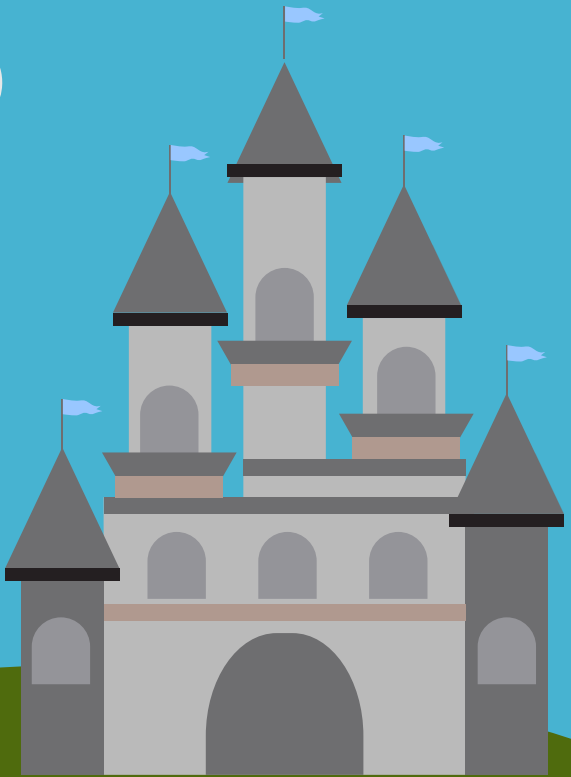

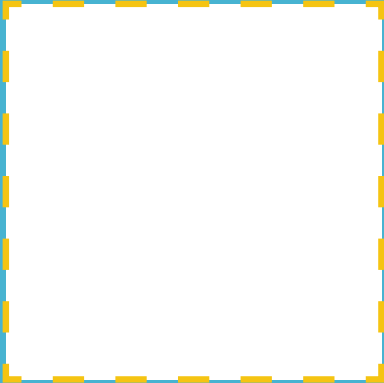

Included is both a morning and evening chart.

INSTRUCTIONS

- Print and cut out the knight.
- Laminate the pieces for durability.
- Attach Velcro to each piece.
